

N V**"Some Kind Of Love"**Visit "[Some Kind Of Love](#)" on MotoLyrics.com

I've been alone for far too long
Now I'm looking to find someone
Someone to love and cherish me
Someone to share all my dreams
And I know that she's out there
And one day I will find her
And if I put my hopes to Love
My heart will guide her

Chorus:

I'm looking for some love
(i wanna find) some kind of love
that special love that I dream of
(repeat)

It's just so hard as days go by
I hope and pray for some kind of sign
Something that says soon you'll be here
Cause only you can stop my tears
And I know that she's out there
And one day I will see her
And when I look into her eyes
My heart will be hers

Chorus

Some kind of love
