Is that the way that I cared for my love-to you I see the
way that she looks at me- inside
Those lonely eyes
What can it be that what she feels inside
The way she stares me in my eyes
Come show me that U need someone who's real
And makes me realize

The way she looks at me
Those lonely eyes so true
What can it be inside I feel so much for you
The way she looks at me come hold me although tight
come stay with me tonight "tonight tonight"

I lie in my bed all alone Without someone to hold
Wishing that you were here with me
To keep me from the cold
Now and forever understand some day
You need a love for real and not for play
Just let me be that one that gives the love to you
A love so pure and so true

Wow this is the way that she looks at me
Tell me why cos I see it in her eyes
Wow this is the way that she looks at me
Tell me why cos I know how I feel inside
When I look in her eyes When I look in her eyes

The way she looks at me...
