[Chorus]

We smoking sour, we smoking sour
We smoking sour, we smoking sour
We smoking sour diesel, like everydayyy
We smoking sour, we smoking sour
We smoking sour, we smoking sour
We smoking sour diesel, like everydayyy

[NORE - over Chorus]

Hahahaha

I love that shit!

My neighbors been complaining

The people downstairs from me been complaining

How about that sour, man

[NORE]

Yo, I wake up smoke a diesel, go to sleep smoke a
diesel

Change my name to Sour and my last name Diesel

See I, get it in jars and I, sneak it in cars

And I, smoke it in bars, damn you a fiend

Haze came back cause I heard her man beatin on her

Kush ain't mad, when she heard that I was cheatin on
her

... Chocolate Thai been cut off

Same category as Henny and Smirnoff

See Phillies is the best, best, diesel is the best, best

Put it all together it help you release stress, stress

Cause I'm a smoker, I'm a smoker, you a smoker, you a
smoker

Put it all together, go all-in like poker

And no I don't smoke bong, that's only for the weirdos

NORE's always good with a half ounce of beers yo

You run and tell the hood, please run and tell the
people
That NORE's in the lab with Grease and sour diesel

[Chorus]

[Styles P - over Chorus]
What we doing?
I love sour diesel Grease, that's my shit
Light that up then
Okay!
That's my thing

[Styles P]
Smoke sour every half an hour, 15 minutes
Got a dutch then, put somethin it
And if it's sour buy more than an ounce
Bring it to the studio, or the house, get high on the
couch
ESPN on, Animal Planet
Since I blew 20 blunts of diesel, shit I can't understand
it
Ain't it evil how the sour diesel can leave you
missin all your shows, nigga thank god for Tivo
What, I keep 10 blunts pre-rolled
Park the car walk down the strip on the G stroll
So let me call my man Grease
I got Styles plus heat, why don't you load up the beat
I be there in a hour, fresher than the shower
Sure feel nice hope the mic got power
Something you can plant and it sure ain't flowers
Grease tell 'em what we doin

[Chorus]

[Interlude]
Now take your two step, now take your two step, now
take your two step
Now take your two step, now take your two step, now
take your two step

[Chorus] - repeat 2X

[repeat to fade]
Now take your two step, now take your two step, now
take your two step
