I'm your key to set you free
You can come to me anytime for cover
Don't play shy, let me try
It's you I really want and not another

Baby, don't you fight
Or you get your little self uptight, you know

Baby, after tonight
Baby, after tonight
Baby, after tonight
Baby, after tonight

You're alive but they could die
Won't you swim to me a little bit closer
I can read what you mean
It's you oh, baby you, I'm looking after

Baby, don't you fight
Or you get your little self uptight, you know

Baby, after tonight
Baby, after tonight
Baby, after tonight
Baby, after tonight

I need your love

Baby, don't you fight
Or you get your little self uptight, you know

Baby, after tonight
Baby, after tonight
Baby, after tonight
Baby, after tonight

Baby, after tonight
Baby, after tonight
Baby, after tonight
Baby, after tonight
