I love you like I want you  
And I kiss you like I need you  
Every night

I'll draw you close to me  
I'll tell you words of comfort  
It's my delight

Darlin' I've grown to love you more every day, oh yeah  
And I've got a song to sing  
Each lonely night, oh yeah, oh yeah

Stronger than the north winds  
Higher than the mountains  
That's my love for you

And I will never hurt you  
Nor will I forsake you  
Darlin' be true

It's only a matter of time, oh yeah, oh yeah  
Then all of my dreams will come true  
In every way, oh yeah, oh yeah

Stronger than the north winds  
Higher than the mountains  
That's my love for you

And I will never hurt you  
Nor will I forsake you  
Darlin' be true

It's only a matter of time, oh yeah, oh yeah  
Then all of my dreams will come true  
In every way, oh yeah, oh yeah

I love you like I want you  
And I kiss you like I need you  
Every night

I'll draw you close to me  
I'll tell you words of comfort

It's my delight

I love you, I love you, I love you  
I really do, oh yeah  
[Incomprehensible] oh yeah, oh yeah

Stronger than the north winds  
Higher than the mountains  
That's my love for you

And I will never hurt you  
Nor will I forsake you  
Darlin' be true

It's only a matter of time, oh yeah, oh yeah  
Then all of my dreams will come true  
In every way

I love you, I love you, I love you  
I really do, oh yeah  
And I'll do anythin' [Incomprehensible]

I love you, I love you, I love you  
I really do, oh yeah  
And I'll do anythin' [Incomprehensible]  
I love you, I love you, I love you
