When the dance hall jus' ram  
Some people call it confinement, oh yeah  
But if you're with your woman or your man  
It's pure excitement, oh

When you see the girls groove  
They get right in the mood for loving, oh yeah  
And if the weedman in the place  
There's no time for pushing and shoving, oh

You see the DJ on the scene  
He knows just what you mean about rubbing, oh yeah  
And when you're feeling alright  
He's right out of sight while he's dubbing, oh

Well, the dance hall jus' ram  
So you see we're dealing with pure niceness, oh yeah  
And the music so loud  
That to shout above it you'd be left voiceless, oh

The music so right  
We could have danced all night  
The feeling so nice  
Operator play it twice

They have the reggae and soul  
And the ital vital dub plate riddims, oh yeah  
They have revival 45, calypso, soca  
And all kind'a riddim, oh

You see the busy barman in the dance  
He's used to dealing under nuff pressure, oh yeah  
And after you've had your drink  
You're gonna need another refresher, oh

Everybody in the dance  
Just grooving, looking laughing and smiling you see,  
oh yeah  
So if you're feeling irie, little darling  
Come and have a dance over by me, oh

The music so right

We could have danced all night  
The feeling so nice  
Operator play it twice
