Girl I don't want to waste time, me just love the profile
You have the general going wild
Degree love it when you smile
Smile for me, you fill my heart with pleasure
Can't you see, you make me feel a whole lot better
Just smile for me. just keep that smile forever
Baby girl the two of we, we have to get together

Smile for me, you fill my heart with pleasure
Can't you see, you make me feel a whole lot better
Just smile for me. just keep that smile forever
Baby girl the two of we, we have to get together

Show me your smile and make me see your pretty
dimple
Them bright like the stars them when twinkle
It make me body full of goosepimple
No take it simple cause it's dem thing that me into
Another thing woman tell me if you are single
And if you are single well hear this ya tingle
If me and you should ever get the chance fe mingle
A dis me what you do to make my body tingle

Smile for me, you fill my heart with pleasure
Can't you see, you make me feel a whole lot better
Just smile for me. just keep that smile forever
Baby girl the two of we, we have to get together

Woman when you smile ever cute you ever twist
Your smile a drive me wild, woman I am tempted to
kiss
Me say honey me say sugar, all over your lips
Could a give me diabetes, me still not resist!
Come dem a smile me a record for you, a compact disc
(I tell you)
Well already fixed like a digital mix, woman you are
bad with it
You no need no practice, and the verse, and start the
corus like this

Smile for me, you fill my heart with pleasure
Can't you see, you make me feel a whole lot better

Just smile for me. just keep that smile forever
Baby girl the two of we, we have to get together

Smile for me, you fill my heart with pleasure
Can't you see, you make me feel a whole lot better
Just smile for me. just keep that smile forever
Baby girl the two of we, we have to get together

Girl a you have the right serial
And you produce the smiling material
From a past end place someone ? your ?
But for your smile a fe dem all good and equal
A smile a there for me is so essential
A what it do me you have to keep it confidential
So just smile a while and don't crap me style
No ever do that to the general

Smile for me, you fill my heart with pleasure
Can't you see, you make me feel a whole lot better
Just smile for me. just keep that smile forever
Baby girl the two of we have to get together

Smile for me, you fill my heart with pleasure
Can't you see, you make me feel a whole lot better
Just smile for me. just keep that smile forever
Baby girl the two of we have to get together
