(lyrics in brackets are translated)

I feel like I am flying so free across the sky
Like i'm diving in the air
I fly high the way you want it

Just gotta the way you want it.

Don't trip on the people
And things around you now
Keep lookin' ahead cousin
So glide on until you find it

Just gotta until you find it
In this limitless sky

Full speed ahead and I get high
Open the window (Look up the sky)
(That's the floating island in the legendary world)
Future is eternal, (Light, early-morning sunlight)
(The greatest, open up, look now with your left eye)

It's all a weird-ass place i'm in so weird a place
I'm tripping-out passing time
It's a wonderful way to free my mind
Up in the sky
I'm content to keep on flying.
