The sky is red tonight  
With no blue in sight  
Your death is on my hands  
I know they won't understand  
If I find your killer first  
His death will be much worse  
With nothing to lose  
I will avenge you

It was a year ago today  
When we were watching the great escape  
And we were sitting in your place  
That I last saw your smiling face  
So now I stand in the rain  
It helps me hide my pain  
Because I won't see you again.  
No I won't see you again.

This is not the way I had this planned  
The magnum's trembling in my hand  
I can see the fear in his eyes  
From his scheduled demise

I found him begging for his life  
And saying a prayer for his wife

It was a year ago today  
When we were watching the great escape  
And we were sitting in your place  
That I last saw your smiling face  
So now I stand in the rain  
It helps me hide my pain  
Because I won't see you again.  
No I won't see you again.

He stole your car, shot the back of your head  
Left you lying in the road for dead  
When your help arrived  
You were no longer alive  
My trigger was pulled tonight  
I took a man's life

It was a year ago today  
When we were watching the great escape  
And we were sitting in your place  
That I last saw your smiling face  
So now I stand in the rain  
It helps me hide my pain  
Because I won't see you again.  
No I won't see you again.

It was a year ago today  
And I miss your smiling face.  
So now I stand in the rain  
Hoping my pain would not remain  
But I still won't see you again.
