Got ourselves on the westbound aeroplanes
headed to the land of opportunity
lookin' forward to be back in golden state
you can breath the air of liberty

life is different in america big and light and uparmed
cadillacs and coca cola
livin' in america

black or white red or yellow are all greedy
every man is equal five feet under ground
good idea george but your plan is history
but your facin' every golden cow

Ref.:

Cutie squirrel from the valley
sellin' true love in the alley
and the eagle in the sky is blinded
by the glory light
