Sign in, log on, you're call
Time to show them what you got, nothing more
Yeah, you got some notifications and couple of friend
invites
But no one to invite you over

Now what's this? I'm pissed
Now tell me what I missed!
Don't know, don't care
You're sitting in your underwear
Trying to show everyone you've been around the world
It's absurd

I know it's true
We're still here for you
And I find it hard to believe
That you cannot see it

Everybody's got to be strong
Everybody needs to be something
Everybody's got to be something more

Everybody's trying to be strong
But everybody needs that someone
Friends are all you have
Don't let 'em go

Everybody say, everybody say ooh
Everybody say, everybody say woo-oo

Alright, right on, last call
Can you feel it? This is it, get it on
And I'm hanging backstage with my friends and a
couple other guys
When I see you heading over

No not this, now I'm pissed
Now tell me what I missed!
Don't know what to say and yet you say it anyway
Trying so hard to convince you've been around the
world

It's absurd

I know it's true
We're still here for you
And I find it hard to believe
That you cannot see it

Everybody's got to be strong
Everybody needs to be something
Everybody's got to be something more

Everybody's trying to be strong
But everybody needs that someone
Friends are all you have
Don't let 'em go

Everybody say, everybody say ooh
Everybody say, everybody say woo-oo
