Madcraft

"InoUno"

Here I see you every day
And you just take my breath away
Like an angel with white hair
You were there just for me

Getting close
Now out of reach
I don't know
I don't know

I know, You know
I would love to take you home
I know You know
I would love to take you home

Still I see you every night
And I don't want to pick a fight
With that guy you're with right now
I wish he like died...
Oh somehow

Getting close
Now out of reach
I don't know
I don't know

I know, You know
I would love to take you home
I know You know
I would love to take you home
