And like I thought it was just you and me  
Still it turned out I wasn't good enough for you

Now I know life can be beautiful  
Now I know that there is more to it for me  
Than you

Now I know there's so much more to love  
Now I know that you weren't good enough for me  
So

Never again  
I will stand by your side  
I won't be there  
This time I swear  
No, never again

Still at times I think of you and me  
Where we left of and where it all went wrong

I guess it was just never meant to be  
Because this time you made it way to clear for me

Now I know life can be beautiful  
Because of this I know that there is more to it for me  
Than you

Never again  
I will stand by your side  
I won't be there  
This time I swear  
No, never again

Never Again!
