Morning is breaking with death on the street  
Driving downtown in a red corvette  
The daemons and satans are creeping around  
La nights are madhouse nights

The murderers - are heroes  
They're speeding all over the town  
And justice - is drunken  
I'm tumbling upside down

I'm a madman  
Living in an animal house  
I'm a madman  
Living in an animal house  
Living in an animal house

Rockers in concert are serving the bible  
Praying in public is getting a habit  
For selling out everything seems to be right, oh yeah  
The sunset is crowded with tramps passing out

They're sleeping - in trash cans  
There's witchcraft in everyone's eyes  
Satans and daemons  
All dressed up in suits and ties

I'm a madman  
Living in an animal house  
I'm a madman  
Living in an animal house  
Madman - going crazy - living in an animal house

I'm a madman...
