Fearing the day - hiding the light
My mind is shocked with fever
Evil will play - night after night
They are the soul receivers
Yeah, they are strangers in the night
Yeah, they're endangering your life
Drinking your tears - embracing your fears
Danger - the lair is hard to find
Danger - so keep that in your mind
Ripping me up - tearing me down
My soul is crying "action!Ã,ÂiÃ,Â°
Terror is king but I got the crown
I'll start a chain reaction
Bridge
Danger - a madness in the air
Danger - dimensions ev'rywhere
Whispering names on lonely roads
With eyes camouflaged in shadows
They stalk the earth in silent packs
No time to die tomorrow
Chorus
