Raised from the glowing ashes of cauldron iron
The phoenix arose from the sanctum of metal
Emerging into the light
So many hard times
So many bad lies
A man of steel
You know I'm real
Ev'rything I do
I'm taking all control - it's my heart
You know it's how I feel
So stick it in your mind - now you're mine
Time - it's time I'm taking over
And crank it up in overdrive
I'll tell you why
You know I'm holy
So fucking holy - raise your hands
You know I'm holy
So fucking holy - pain and pride
So many places
So many aces
I made a curse
I gave you birth
Ah - glorious metal times
The master of our lives - never died
A special kind of force
Together no remorse - you'll be mine
Bridge
Chorus
Burning on overload
Legends won't die
No cross - no burdens to control
No asking why
Bridge
Chorus
The master never dies
Chorus
