How can we,
Who told the lie
Still feel the nature cry
So many sorries
Ignoring fears
A lonely voice,
It's time to hear
So many times
The stories been told
So many times
We had warnings and all
One last chance -
The final call
One lone voice
In the midst of silence
One lone voice
In an empty hall
One small light
On the dark horizon
One lone voice
Always cries alone
Nations talk while losers die
We face a blood red sky
Join in the chorus
And raise your voice
Nothing to lose
And no more choice
So many times
The stories been told, ...
One lone voice
In the midst of silence, ...
Time is now,
The time to change
Last chance to turn the page
Too late for sorrow,
Too late to cry
It's all on us
- the wheel of life
One lone voice
In the midst of silence, ...
