

U. D. O. "Shout It Out"

Visit "[Shout It Out](#)" on MotoLyrics.com

Why are you so frightened - we're getting in the mood
Body breaking volume - we are loud and rude
Laser piercing lighting - megasonic sound
The first day of your lesson - upheaval in the ground
We're forging straight ahead now - it's not a dream
Never ever lose the power - we're as hard as steel
Don't you feel the fire - the burning in your soul
Just come and join the fantasy - it will make you free
So cut the crap out - it's for you
Feel so damn proud - of this rocking crew
We'll break the world down - tear up all the rules
Reality is clear now - the future is for you
So shout it out - just let it out
So shout it out - as loud as you can
So shout it out - just let it out
So shout it out - as loud as we all can
Now's the final showdown - it's time to be released
Our weapons are so deadly - we're armed up to the
teeth
Electrostatic soundwaves - you cannot hide
Gonna execute our metal shock - straight between the
eyes
Bridge
Chorus
Shout - shout - shout - shout
Shout - shout - shout - shout
Chorus
