Thunder- thunderforce  
Thunder- thunderforce

In a lonely night- stars are shining bright  
My soul is wandering- striking the universe  
I am flying to a light- to a point of no return  
In the name of a master- some spirit picks me up

Oh- I feel the heat  
Getting attacked- I'm fighting back  
Oh- is this the light- the light of glory

Thunder- thunderforce- lightning strikes again  
Thunder- thunderforce- lightning strikes again

Getting closer- you will see- the master- that's yourself,  
oh yeah  
Oh- I feel the heat  
Getting attacked- I'm fighting back  
Oh- is this the light- the light of glory

Thunder- thunderforce- lightning strikes again  
Thunder- thunderforce- lightning strikes again

Thunder- thunderforce- striking the universe  
Thunder- thunderforce- getting attacked- I'm fighting  
back

Thunder- thunderforce- lightning strikes again  
Thunder- thunderforce- dancing on fire- dancing in hell
