It was a time before me
It was a rhyme you can't see
Everything went wrong
Everything went wrong
Oh, help me out of a world of sins

Because I, I, I am a humanoid
I can't control anything
Because I sigh, sigh, sigh
It's a song I cannot sing
Oh, I am just a humanoid

It was a clock to tick again
It's another day to begin
Everything went wrong
Everything went wrong
Oh, I'll help you out of misery

Because I, I, I am a humanoid
I can't control anything
Because I sigh, sigh, sigh
It's a song I cannot sing
Oh, I am just a humanoid

I'm humanoid...
You're an android...
We are both paranoid

(Solo)

I'm humanoid...
You're an android...
We are both paranoid
(x10)
