I see your face on television,  
Almost every day.  
In magazines and on the big screen,  
Close yet far away.  
Remember that night at my window,  
When I waved at you?  
I must have been only five or so,  
But I never forgot you  
I wonder why you chose those others  
An you never come to call on me  
When I'm the one who's waiting for you,  
I really need you, please pick me!  
Spaceman, oh spaceman!  
Come rescue me from this!  
Calling all aliens,  
Come rescue me!  
Spaceman, oh spaceman!  
Come rescue me from this!  
Calling all aliens,  
Come rescue me!  
Remember that night at my window,

When I waved at you?  
I must have been only five or so,  
But I never forgot you  
I wonder why you chose those others  
An you never come to call on me  
When I'm the one who's waiting for you,  
I really need you, please pick me!  
Spaceman, oh spaceman!  
Come rescue me from this!  
Calling all aliens,  
Come rescue me!  
Spaceman, oh spaceman!  
Come rescue me from this!  
Calling all aliens,  
Come rescue me!  
Spaceman, oh spaceman!  
Come rescue me from this!  
Calling all aliens,  
Come rescue me
