Beep beep on my car, beep beep on my car
We're moving on my car, we're moving up the charts
I got new shoes and brand new car now

Nervous breakdown, panic attack,

all this global hoppin has got me outta whack.
I gotta stand up tall, back up at the wall,
to show them how we do at the ed rec ball, hey!
Ima crush your party, stay until the dawn.
Im gonna drink all your bottles, before I come home.
Uffie is that, cutie who leaves your bar empty,

Im only 19 but Im super ... sexy.
Magazines stalk me, like record companies
I do this photo shoot but I keep the gucci.
I like to dress fancy, yes Im a wise chick,
And I got more stamps in my passport than a post
office.
Im making the hype, you know what its like?
Me and feadz we travelin first class and we save your
whole night ahha

The internet is going nuts and Im that witch doctor.
