You were the section of my magazine,
you blew my mind like no one of the human kind.
You were the only one I could ever speak,
this secret language between us in the sheets.
You made my mind and body so hot,
you turned this
wild child into a lady by night.
And when I met you long ago, I was so alone,
my heart was beating so fast I had to write this song,
and it goes.
You make me feel so beautiful, its like the fun is
always shining when you are in control.
You are my mister mystery and theres no way I can
explain the way you
make me feel.
Late night loving on your balcony,
Im feeling wobbly at the knees who thought that would
be me.
You lift me up to where I want to be, you
make everything so clear I can finally see...
You are, the one that I always
think about.
My first love that I made this song about.
You know me well and you always make me feel, like
Im
the one and I know your love is real.
I love it when you whisper in my ear, you say the
sweetest things that I wanted to
hear.
I never thought I could feel this way, and when I leave
you in the
morning I think of you all day.
I feel so peaceful after we make love, I lay
with you forever just like the sweetest drug. And the

whole world around us stops
and stares, it feels so good to fall asleep knowing
that you are there..
c!mon!
You make me feel so beautiful, its like the sun is
always shining when
you are in control. You are my mister mystery and

theres no way I can explain
the way you make me feel.
And when you left me out this day, I thought you
will come back anyways...
you dont, you dont, you dont... but thats ok.
I
aint gonan fall, I gotta get up and roll, thats the way
you want it... and I
wont help it. I off to search a new lover, with my
chance I might find
better.. I can picture you alone and bitter and with
the time..
Have to say,
damn I wonder why I broke up with that cool chick, now
Im wasting all my time
looking for girls to meet.
You are the one, that I always think about, my
first love that I made this song about. You know me
well, and you always make
me feel. Like Im the one, and I know your love is
real.
Im so alone, I can
get her phone.... I can call her back, and ask her to
take me back.
Hello,
yeah yeah its me, yeah so? I made a huge mistake
uh huh yeah you did!
