you wanna talk about it
uh
let me talk about it
i got this sound bit
killin like there's nothin like it.
i came to rock the party,
you got to work yo body
we in the dark no one can see
so i can touch yo body
you know my band right?
i'm kind of famous now.
i'm takin pictures with my fans and findin hits now
i am a rock star
and i party like one
in fact i partied like a rockstar before being one
wish i'm the exorater
i like when we drive faster
i want to feel the speed
this car got hat i need
no we aint gonna stop
we drivin to the top
i dont want to go back
i'm chosin the fast track
you can practice all you want
just forget me
i aint try to test no one
i'm just tryin to please me
sometimes what i do is wrong
sometimes i can reach the
highest state of living
cause i'm making you feel free

you wanna talk about it
uh
let me talk about it
i got this sound bit
killin like there's nothin like it.
i came to rock the party,
you got to work yo body
we in the dark no one can see
so i can touch yo body

music is the best thing
that ever happened to me
i'm hooked on that thing
now i'm feelin like a junkie

i bring you ragin dance
if you do it with me
will you let U-F-F-I-E gets better with the big E
i don't think anyone is gonna bounce outta here .
the music got you on the floor
we aint goin no where
i know you like the way i drop it like the boss do
i might be young but i'm killing like i'm spouse to.

dancin like i'm spouse to
party like i'm spouse to
feeling like r kelly in the club where i'm supposed to
you know we sound so fresh
no one can do it best
it's just another track
no we aint gonna stop

you wanna talk about it
uh
let me talk about it
i got this sound bit
killin like there's nothin like it.
i came to rock the party,
you got to work yo body
we in the dark no one can see
so i can touch yo body
