Got up this mornin' and thought about,  
what was I doing last night?  
I met a boy, the kind I like,  
so I took him on the side.  
I had some fun, the time was right and you know I'm  
pretty wild.  
Love is just a game,  
you know it  
, and we all like to play.  
My responsibilities stayed in Paris,  
tonight I'm gonna play.  
You got yourself a good girl, so move it  
, before I get out the way.  
(And he did).  
You don't have to buy me drinks.  
(I'm UFFIE and I shine)  
. Follow me backstage, right here we're gonna have a  
good time.  
We are young and we're hot,  
we got skills to make us pop.  
I want you and you want me so let's not wait to fall in  
love. Seen a few crazy things with my pretty green  
eyes.  
I ain't afraid to talk about  
how far we're goin' by night.  
I'm arriving in the club.  
I get drunk and i get drugs.  
Faces booming on the sub i lay my vocals on the dub.  
Now we rock,  
we don't stop,  
we drop songs to keep you hot.  
In the front in the back,  
watch me get it on like that.  
I'm the shit i'm a freak,  
now everybody get on this.  
Move your waist and rock your hips.  
POP DROP ROLL WHAT? (X4).  
Rockin' no stoppin', we're roc  
king non-stop.  
We're taking the clock in, rockin' 'round the clock  
. The substance is on my brain and I gotta do it again.

I'm getting late to catch the plane it's not the end of my weekend.  
Everybody's on my back I've got to do this right.  
I've got to give those mother fuckers something good tonight.  
I'm back from tour with my friends,  
it feels like I never stop  
. A few hours of sleep and I'm already back on the track,  
'cause there is no time to lose.  
We're rockin' 'round the clock.  
130 BP and we think inside the speaker box.

Like the junior Mafia  
I'm here to get the money.  
I've got dope beats for my familia,  
I'm taking it honey  
. In the club and the hotels, sometimes with my homie.  
We're getting paid from the club  
, we come back with your lady.

If you don't like what I keep talking about  
turn this shit off  
. We ain't frontin' we're still about  
what makes you pop that head off.  
And if you hate it's  
'cause you're not hot like the ED BANGER CREW  
Cause from tokyo to scandanavia they say Ed Banger rules

'Cause from tokyo to scandanavia they say Ed Banger rules
