Hey there now big shot well just listen to me I know the
score and it's no great mystery I hear you talking and
it's all been said But what I'm thinking I keep inside
my head * I ain't no baby, so get out of my way
Keep in with your own kind Ain't none of your business, you
got nothing to say Stay away, forever You play the cool
star it's a dangerous game Don't forget the street
and who gave you your name Romance in with the
company as they pour in the pounds If the next thing is
you and then who are the clowns? * chorus--
instrumental--* chorus Stay away, forever
