Hey there now big shot, well, just listen to me  
I know the score and it's no great mystery  
I hear you talking and it's all been said  
But what I'm thinking I keep inside my head

I ain't no baby so get out of my way  
Keep in with your own kind  
Ain't none of your business  
You got nothing to say, stay away, forever

You play the cool star, it's a dangerous game  
Don't forget the street and who gave you your name  
Romancin' with the company as they pour in the Pounds  
If the next thing is you and then who are the clowns?

I ain't no baby so get out of my way  
Keep in with your own kind  
Ain't none of your business  
You got nothing to say, stay away, forever

I ain't no baby so get out of my way  
Keep in with your own kind  
Ain't none of your business  
You got nothing to say  
Stay away, forever, stay away, forever
