Hit me like a hammer to my head, we thrashed in bed
baby

Drove a truck right through my life, struck me like a
knife

There's a finger in my pie, someone else's guy
Caught you with your pants down, fingers in the till
Caught you stealing something, my last thrill

At war with the world, as this life unfurls
Ooh, better get ready
At war with the world, as this life unfurls
Better get ready

Living like a hound dog who's not fed, life's one big
bed baby
From the trash right on the street and anyone you meet
Trying to make the first glance and I doubt you will last
Caught you with your pants down fingers in the till
I guess I've swallowed life's hardest pill

At war with the world, as this life unfurls
Ooh, better get ready
At war with the world, as this life unfurls
Better get ready

At war with the world, as this life unfurls
Ooh, better get ready
At war with the world, as this life unfurls
Better get ready

At war with the world, as this life unfurls
Ooh, better get ready
At war with the world, as this life unfurls
Better get ready
