Heaven knows that you're an evil child,  
Drive me crazy, drive me wild  
Get home from work I don't feel alright  
Go in your bedroom you just want to fight  
Moving in, moving out, baby you move my mind about  
Don't give me no reasons don't give me no lies  
Come to take you home from school you've broken all  
the rules  
All I need is a bit of your love  
All I want is a bit of your love  
All I want is a part of you...  
Heaven knows that you're an evil child,  
Drive me crazy, drive me wild  
Get home from work I don't feel alright  
Go in your bedroom you just want to fight  
Moving in, moving out, baby you move my mind about  
Don't give me no reasons don't give me no lies  
Come to take you home from school you've broken all  
the rules  
All I need is a bit of your love  
All I want is to hold you tight  
All I need is a part of you...
