Last train's eleven, it's now quarter past
Why're you tryin' to make the evenin' move so fast
And I'm in real trouble but I can't go back home
They locked the doors and I'm left out alone

You can come to my place and sleep on the couch
Lots of people do it and we won't leave you out
Hard times out on the street
Hard times, hard to beat

The painted lies they all hand you
I'm a loser on the road
I'm a loser on the road, yeah

Euston station and it's cold as ice
All night specials, they move you on
But me and Ginger over there
We got this thing where we really take care

You can come to my place and sleep on the couch
Lots of people do it and we won't leave you out
Hard times out on the street
Hard times, hard to beat

The painted lies they all hand you
I'm a loser on the road
I'm a loser on the road, yeah

Loser
I'm a loser
I'm a loser
I'm a loser
Yeah, yeah
