Just a bad situation
Got me low, feelin' down I'm wonderin' why
Caught me unawares
No one knows an' no one cares
They put you down no matter how you try

Put the words together
Feelin' so strong
I can't last forever, I can't hold on
I can't hold on, no no

Somebody, someone is tearin' my whole inside
Somebody, someone is takin' me for a ride
Just a little bit of madness
Do you no harm

Another night it's another shakedown
Lookin' for a place to hide
This could be your nervous breakdown
It's just another suicide

Just a cold realization
Gotta go I wanna turn and run away
It's got me in a spin
I'm gonna lose and never win
They put you down no matter what you say

Put the words together
Feelin' so strong
I can't last forever, I can't hold on
I can't hold on, no no

Another night it's another shakedown
Lookin' for a place to hide
This could be your nervous breakdown
It's just another suicide

Just a bad situation
I can feel it gettin' closer everyday
Say I'm out of line
I'm takin' out of borrowed time
What's the use of tryin' anyway?

Put the words together
Feelin' so strong
I can't last forever, I can't hold on
I can't hold on, no no

Somebody, someone is takin' me for a ride
Somebody, someone is tearin' my whole inside
Just a little bit of madness
Do you no harm

Another night it's another shakedown
Lookin' for a place to hide
This could be your nervous breakdown
It's just another, suicide

Another suicide
Another suicide
Another suicide
