Cold run speed highway was the place where we'd all
go
When our nerves were razor sharp, and we'd all let it
roll
Let it roll, let it roll, let it roll, let it roll

Our machine's geared up, and we're really layin' it
down, layin' it out
Let it go

When these wheels get rollin', let them roll right over
you
'Cause I'm well greased down, and I'll always win it
through
Let it roll, let it roll, let it roll, let it roll

Machine's geared up, and we're really layin' it down,
layin' it out
Let it roll

Cold run speed highway was the place where we'd all
go
When our nerves were razor sharp and we'd all let it
roll
Let it roll, let it roll, let it roll, let it roll

Machine's geared up, and we're really layin' it down,
layin' it out
Let it roll
