"Pack It Up"

Visit "[Pack It Up](#)" on MotoLyrics.com

I've got to sympathize
You run with all the rest
You've kept on moving but never got the best
And all our yesterdays go sailing out of view
I know there's something left hope you can make it
through
Pack It up and go, pack it up and go,
Leftover from the show, just pack it up and go
You made the impact back in 1969
But now move over friend I think you've had your time
And all our yesterdays go sailing out of view
I know there' something left, hope you can make it
through
Pack it up and go, pack it up and go, left over from the
show just pack it up and go

--instrumental ---

And all our yesterdays go sailing know there's
something left
Hope you can make it through
* instrumental ending ---
