Catch a falling star put it in your pocket
Take hold of the moonbeams, hang them around your
neck

Prince Kajuku's coming feathers in his hair
Tapping on his juju stick, take you down there

Prince Kajuku holds you never let's you go
Feel his power around you when your weakness shows

Take a starry circle hold it in your hand
Never let Kajuku take [guide] you to his land

Catch a falling star put it in your pocket
Take hold of the moonbeams hang them around your
neck
Kajuku, Kajuku, walking down the street
Tapping on his juju stick, take you down there
