White lines on the highway
Rolling out into the night
Got no bag to slow us down
We're traveling light, traveling light tonight

Feel the wheels roll away
How many miles have I been gone
Listen, girl, you never knew
This road goes on all night long

This fire burns tonight
The streets are alight
Out on this town we are bursting

This fire burns tonight
The streets are alight
And out on this town we are bursting

Now me and my partners are moving
We run on from town to town
And this here road surface
Is setting them up, rolling them down

There's girls out in the neon
Singing blues every night
And you that they'll never love you
They're traveling light, traveling light

This fire burns tonight
The streets are alight
Out on this town we are bursting

This fire burns tonight
The streets are alight
Out on this town we are bursting

This fire burns tonight
The streets are alight
Out on this town we are bursting

This fire burns tonight
The streets are alight

And out on this town we are bursting

This fire burns tonight
The streets are alight
Out on this town we are bursting

This fire burns tonight
The streets are alight
Out on this town we are bursting
