"Too Young to Know"

Visit "[Too Young to Know](#)" on MotoLyrics.com

Well, I've stuck out in your street
And I'm lookin' for some kind of halo
When somebody says to me, hey boy
She's too young to no no

Well, I didn't make your time
I never said you were mine
Don't you think you show so I
Guess I'll have to teach you how to roll

Met you outside school
When sure no one was lookin'
And your teacher looks at me
All his envy growin'

Well, I didn't make your time
I never said you were mine
Don't you think you show so I
Guess I'll have to teach you how to roll

I said, take it easy baby
You sure know what's showin'
And I can't help myself
Without your friends all knowin'

Well, I didn't make your time
I never said you were mine
Don't you think you show so I
Guess I'll have to teach you how to roll

Well, I didn't make your time
I never said you were mine
Don't you think you show so I
Guess I'll have to teach you how to roll

You got a long, long way to go
