I heard you tiptoe in last night
Cross the porch stars were bright
Past my room and into yours
Sliding locks and chaining doors

You'll get love
My kind of love
You'll get love
The love you give to me

I see the men that come and go
Through a hole that doesn't show
Every day we pass in the hall
I'm like a picture on the wall

You'll get love
My kind of love
You'll get love
The love you give to me, yeah

I hear your giggles and little sighs
Close my eyes and fantasize
But as you're sleeping a room away
In the dark you hear the jackal play

You'll get love
My kind of love
You'll get love
The love you give to me

You'll get love
My kind of love
I'll get love
The love you give to me
