[Instrumental-0:55]

You were right in my sight
A new chapter in my life
Can't find an ending, can't find me
Can't find resolve in the thoughts I dream
You were right in my sight.

Time gave us a window,
I think we might have missed it
A message in a daydream,
Better follow quickly
Haunted expectations
Ties are broken daily
Time gave us a window
Can you see an ending?

You were right in my sight
A new chapter in my life
Can't find an ending, can't find me
Can't find resolve in the thoughts I dream
You were right in my sight.
