"Just For Now"

Visit "[Just For Now](#)" on MotoLyrics.com

Let's go out and make the road shake
I got love to make
And I've gotta leave in the morning light
Got a book to write

Leather bound in my feathered hand
To make you understand
To make you understand
That its jus for now
It's just for now

20 years on a steady slope
I'm all out of hope
Never thought we'd come this far
No matter where you are
Oh I'm telling you that when I go
There's something you should know
There's one thing you should know

That it's just for now
It's just for now
It's just for now, hey
It's just for now
