U run it rich, that carburetor  
U gotta open, open that choke.  
'Cause when you're here, the air it won't clear.  
And u just blowin', just blowin' smoke.

U got a blue feather bird on a golden swing.  
It wears a ruby tipped crown but it don't sing.  
U keep bringin' me gifts like it ain't no thing  
but I thought u said goodbye.  
I thought u let; let that bird fly. (there it goes)

Baby, I can't wash you clean.  
U got a match, well I got the gasoline.  
Baby, redemption ain't free.  
U gonna need more than u can get from me.  
This river's dry. Baby, can't wash u clean.

U gotta a new monkey bangin' some tambourine.  
It's got some big button eyes; it's made of velveteen.  
U just want me to know u got all you need.  
but am I OK alone?  
cause here's a monkey  
if I need company; (nice monkey)

U comin' over like u was clover.  
I'm gonna cut it with my lawnmower.  
U knockin' at my, my door all tangled.  
Your guilty conscience wrapped 'round your ankles.  
I see you draggin' it 'cross my floor now.  
U feelin' better. I'm feelin', I'm feelin' worse now.
