

Magic Numbers, The "Most Of The Time"

Visit "[Most Of The Time](#)" on MotoLyrics.com

Most of the time
I thought about leaving
Most of the time
I swear I heard you call him
Most of time
Oh he said, he said
I never will give up on you
But he did now babe
Or desert you
And you swear that you had it made
I never meant to hurt you
And I try and I try and I try
But I don't know why
I don't know why I keep it all inside

Most of the time
Our heads been thinking way too much
Most of the time
I lost your body when I lost my touch
Most of the time
Oh he said, he said
I never meant to hurt you
I don't want to be the one to tear it down
Or desert you
And I'm sick to death of hanging around
I never meant to hurt you
And I try and I try and I try
But I don't know why
I don't know why I keep it all inside
Oh you know you're just my kind

And if you stay
I know I lie, I know I lie
Gonna try so hard to get up
And get over you
And if you stay
I know I lie, I know I lie
Gonna try so hard to change your mind

Most of the time
Most of the time

Most of the time
Oh he said, he said
I never will give up on you
I don't want to be the one to tear it down
I never will give up on you
I'm sick to death of hangin'round
I never will give up on you
I don't want to be the one to tear it down
And I try and I try and I try
But I don't know why
I don't know why I keep it all inside

And if you stay
There's a love that you hold
If you let go, you let go
Of everything we've ever had
And if you stay
I know I lie, I know I lie
Gonna try so hard to make you mine

Ain't too proud to beg
Ain't too proud to beg
You know now
Won't you give me my love
Ain't too proud to beg
Ain't too proud to beg
Move over now
Won't you give me my love

You tell her, and you tell, and you tell
Ain't too proud to beg
Ain't too proud to beg
Move over now
