"Baby I Saw A Ufo"

Visit "[Baby I Saw A Ufo](#)" on MotoLyrics.com

We are not alone, baby I saw a UFO
We are not alone, baby I saw a UFO
We are not alone, baby I saw a UFO
Flying through the mountain and following me home

Cos the light has just made a whole new highway
And the people from the place are coming here
And the people from this place come from inner space

We are not alone, baby I saw a UFO
Flying through the mountain and following me home
We are not alone, baby I saw a UFO
Flying through the mountain and following me home
We are not alone, baby I saw a UFO
Flying through the mountain and following me home

Cos the light has just made a whole new highway
And the people from the place are coming here
And the people from this place come from inner space
And the people from this place come from outer too
And the light has just made a whole new highway
And the people from the place are coming here
And the people from this place come from inner space
And the people from this place come from outer too

We are not alone, baby I saw a UFO

Light has just made a whole new highway
And the people from the place are coming here
And the people from this place come from inner space
And the people from this place come from outer too

We are not alone, baby I saw a UFO
Flying through the mountain and following me home
We are not alone, baby I saw a UFO
Flying through the mountain and following me home
We are not alone, baby I saw a UFO
Flying through the mountain and following me home
We are not alone, baby I saw a UFO
Flying through the mountain and following me home

Cos the light has just made a whole new highway
And the people from the place are coming here
And the people from this place come from inner space
And the people from this place come from outer too
And the people from this place come from outer too

And the people from this place come from outer space
And the people from this place come from outer space
Cos the light has just made a whole new highway
And the people from this place are coming here
And the people from this place come from inner space
And the people from this place come from outer too
And the people from this place come from outer space
And the people from this place come from outer too
