[U-God]

Driving down the strip, and you see my spokes  
And I rip off my shirt, like he's the Hulk  
And I squeeze off volts, just to please your folks  
And hip hop, yeah, needs a jolt  
Then you fall to your knees, when I squeeze your throat  
Cuz these hip hop fiends, they need they dope  
And I puff on weed, then I blow out smoke  
He's so feroc', now here's a dose  
Now throw it to the left coast, whatchu expect, bro?  
I let my tech blow, no, it ain't techno  
You get your neck broke, python strong  
You want problems, now bring it on

[Chorus: U-God]

Hear the sounds of the titans clash  
Sucker M.C.'s try to bite this fast  
Jody gon' put it on smash  
It'll happen so fast, kick ass  
The rap world thought that Wu won't last  
Sucker D.J.'s keep playin' that trash  
Jody gon' put it on blast  
It'll happen so fast, kick ass

[U-God]

I been through 'nuff shit, and I paid the cost  
Now I wear big hats, like I'm the boss  
Knock you off your high horse, with no remorse  
In hip hop, there's no need to floss  
Those who don't believe, I leave you scorched  
Peel out in the porsche, with dual exhaust  
U-God is the name, the game is torched  
Upside your head, you get banged with force  
Throw it to the left coast, whatchu expect, bro?  
I let my tech blow, no, it ain't techno  
You get your neck broke, python strong  
You want problems, now bring it on

[Chorus x2]
