

## Uh Huh Her "Philosopher"

Visit "[Philosopher](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I'm sitting here along the west side  
I think of all the ways that I could fuck with you right  
now  
But when I wrap my head around you  
You couldn't be more trouble I don't need to lift a finger

Jump in a hole  
I dig it for you  
You're in a hole  
I dig it for you

You live inside the space between life  
Your crazy world is so small when you think about it  
You can take your shit out on me  
Look in the mirror then you see what I see

Jump in the hole  
I dig it for you  
Jump in the hole

I'll tell you my philosophy  
Is new reality  
I have gone to hell and back  
We suffered through enough

Don't tell me your religion  
The price to pay is freedom  
I have gone to hell and back  
Your ship was always sinking

You like to have your way to know it  
What does love got to do when you think about it  
Say it's time to stop pretending  
Things they come and they go that's the way it is

You like you living  
It's just beginning  
I'm not the one to blame  
I'm not the one

Jump in your hole

I dig it you for you  
Jump in the hole  
I dig it for you

I'll tell you my philosophy  
Is new reality  
I have gone to hell and back  
We suffered through enough

Don't tell me your religion  
The price to pay is freedom  
I have gone to hell and back  
Your ship was always sinking

You scream it out from the mountaintops  
You throw us all under for what  
Your action, they speak louder than words  
Was it enough to drag us all down into your world

Jump in your hole  
I dig it for you  
Jump in the hole  
I dig it for you

I'll tell you my philosophy  
Is new reality  
I have gone to hell and back  
We suffered through enough

Don't tell me your religion  
The price to pay is freedom  
I have gone to hell and back  
Your ship was always sinking
