I am weakness, I am greatness, and anything you want  
me to be  
I am wasted, and I'll make this the anthem for the  
dying breed  
See the light in the night when you're fading away,  
Trust in us, we're all that you've got these days  
Take a look inside my heart, oh lets get carried away

Don't you dare, don't you ever give up, don't you ever  
give up oh,  
Don't you dare, don't you ever give up,  
Don't you ever give up on us, my dear

I am selfless, I am selfish, I'm anything that I wanna be  
This is violent, this is honest, it's the anthem for a  
dying breed  
See the light in the night when you're fading away  
Trust in us, we're all that you've got these days  
Take a look inside these eyes, oh let's get carried away

Don't you dare, don't you ever give up, don't you ever  
give up, oh  
Don't you dare, don't you ever give up,  
Don't you ever give up on us, my dear

Don't give up on us, no don't give up on us  
Don't give up on us, no don't give up on us

Don't you dare, don't you ever give up, don't you ever  
give up, oh  
Don't you dare, don't you ever give up,  
Don't you ever give up on us, my dear
