I got your call and now I'm here at your door  
False alarm cause your not here anymore  
I had it all in my head wouldn't save you,  
But you set me up again like you always do

The more you treat me cruel oh  
It just adds fuel to the fire (fuel to the fire),  
Its easy like you do but it  
Just chews my desire (fuel to the fire)  
You say you don't want me, I think your a liar,  
Love or lust it just adds fuel to the fire  
(fuel to the fire)

Sexy pics, you send to me on my phone  
And now I'm here and I cant get you alone  
I think I'm just beginning to understand  
You just like having me up again

I make you think your the only one, but if we're not  
having fun then were done and ohhh

Fi-fi-fi-firee  
Fuel to the fire, fuel to the fire  
Fire.
