When you left, she was a wreck
'Cause she said, you left a mess
But you said that you'd be back home
Didn't wanna see her all alone

And you bet she took your word
'Cause she said you'll never learn
All the things that you put her through
Don't know why she's coming back to you

But she says she's alone
But she knows she's in love

Mr. Winter, did you miss her?
For the three months you were gone,
Had her waiting all night long
Mr. Winter, don't forget her
She'll be waiting all alone
Please just say you'll come back

And he's cold, but he keeps you warm
'Cause his love still burns for you
And you don't know what's in store
But you both know what is true

Oh, she says she's alone
But she knows she's in love

Mr. Winter, did you miss her?
For the three months you were gone,
Had her waiting all night long
Mr. Winter, don't forget her
She'll be waiting all alone
Please just say you'll come back

Mr. Winter, did you miss her?
For the three months you were gone,
Had her waiting all night long
Mr. Winter, don't forget her
She'll be waiting all alone
Please just say you'll come back

But you said that you'd be back home
Didn't wanna see her all alone
All the things that you put her through
Don't know why she's coming back to you

But you said that you'd be back home
Didn't wanna see her all alone
All the things that you put her through
Don't know why she's coming back to you

Mr. Winter, did you miss her?
For the three months you were gone,
Had her waiting all night long
Mr. Winter, don't forget her
She'll be waiting all alone
Please just say you'll come back

Mr. Winter, did you miss her?
For the three months you were gone,
Had her waiting all night long
Mr. Winter, don't forget her
She'll be waiting all alone
Please just say you'll come back home
