"Shake It"

Visit "[Shake It](#)" on MotoLyrics.com

My cowboy boots they don't seem to fool not anyone,
not even you
I've got an old suitcase full of my old ways
But I tossed it away and I swallowed that key
So take a deep breath and throw it all away

Don't fight, cause this is what you need.
Come on and shake, shake, shake it
Around and around and around again.
Don't fight, cause this is what you need.
Come on and shake, shake, shake it
Around and around and around again.

And ohh my god, when you move that way
Your gonna get every boy you meet in this entire town
And ohh my god when you move that way
Your gonna get every boy you meet including me

So take a deap breath and throw it all away.

Don't fight, cause this is what you need.
Come on and shake, shake, shake it
Around and around and around again.
Don't fight, cause this is what you need.
Come on and shake, shake, shake it
Around and around and around again.

Come on and shake it.
Shake it for me.

So don't fight, cause this is what you need.
Come on and shake, shake, shake it
Around and around and around again.
Don't fight, cause this is what you need.
Come on and shake, shake, shake it
Around and around and around again.
