Here's to words that tell the truth, when it's easier to lie
Here's to staring into the sun, when you used to close
your eyes
I was the dark before the dawn, the voice without a
song,
The words that came out wrong but you heard me all
along

Untangle me, I'm not looking for a sign,
Keep your body next to mine and set me free
Untangle me, from these feelings trapped inside
Way out past the smoke and fire is where I'll be,
I've been waiting such a long time for someone to
come along, untangle me

I'm on the inside looking outside, that's the only place
I've been
Hesitating, suffocating, but then you let me in
I was the storm before the calm, the hope is hanging
on,
The words that came out wrong, but you heard me all
along

Untangle me, I'm not looking for a sign,
Keep your body next to mine and set me free
Untangle me, from these feelings trapped inside
Way out past the smoke and fire is where I'll be,

Yeah, whoa, untangle me, whoa
And maybe for the first time, you'll get the best of me
The part that isn't broken like before,
The man I'm not afraid of anymore

Untangle me, I'm not looking for a sign,
Keep your body next to mine, set me free, yeah
Untangle me, from these feelings trapped inside
Way out past the smoke and fire is where I'll be,
I've been waiting such a long time for someone to
come along, untangle me

Whoa, oh no baby

Untangle me,
Whoa, oh keep on waiting
Untangle me
Whoa, that's all I'm saying
Untangle me
