"Endangered Species"

Visit "[Endangered Species](#)" on MotoLyrics.com

What makes you breed like rabbits?
Is it just religious habit?
What makes you die like flies?
Have you ever stopped to reason why?

Human life is cheaper now
It's time they killed that sacred cow
Taught to fear before the altar
Led like a lamb to the slaughter

We are the endangered species
We can blow ourselves to pieces
We are the endangered species
We can blow ourselves to pieces

You bury your head in the sand
You never try to understand
Why so much greed and corruption
March with the armies of occupation
